

## Car charger 2xUSB-A XW + 1xUSB-C 30W + 1xUSB-C 65W + 3 car sockets

**CHARGE UP TO 7 DEVICES ON YOUR CIGARETTE LIGHTER!**

Do you want to simultaneously charge your Smartphone and electronic devices in your vehicle while keeping your cigarette lighter input accessible?

This charging station is made for you. Supplied with a removable base equipped with two 3M adhesive stickers, you can easily attach it to the location of your convenience. Its 3 cigarette lighter inputs support devices that require a lot of power (up to 8.5A shared).

Its 2 USB-A ports including a QC 3.0 (ultra-fast charging) as well as its USB-C ports (up to 65W), allow optimized charging of your Smartphone and electronic devices. The ON/OFF LED buttons located on the cigarette lighter connectors allow you to turn off the chargers, without having to unplug the station.

This allows you, among other things, to preserve your vehicle's battery.

In addition, the charging station is equipped with a screen located on its cigarette lighter charger. The latter displays the voltage of your battery and will warn you if its level is critical.

Let yourself be seduced by its range of features.
