## Professional wired USB-A & USB-C headset - ACTIV200S

### ACTIV200S HEADSET MICROPHONE FOR SMOOTH AND CLEAR PROFESSIONAL CONVERSATIONS

The ACTIVKID is a wired headset specially designed for children. Ideally designed for learning, it combines comfort, safety, and audio performance. Its adjustable headband easily adapts to all children's body shapes, while the soft ear cushions ensure a comfortable fit even during extended listening sessions.

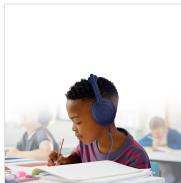

For safety, the ACTIVKID is equipped with an adjustable volume limiter with three levels (85/96/105 dB) for optimal hearing protection, including 85 dB, the recommended level for young children. The 270° rotatable microphone ensures clear communication, ideal for calls, online gaming, or e-learning. A side button allows for easy volume adjustment. Thanks to its sturdy 1.8 m cable, the headset offers ample freedom of movement. It is compatible with all devices with a 3.5 mm jack, a USB-A and USB-C connector: tablets, smartphones, computers and game consoles.

#### BOX CONTENTS

- 1 x ACTIVKID wired headset for children - special size adjustment and decibel limitation

- 1 x Instructions
