## 4K wireless HDMI screen sharing

#### FOR AN EASY PRESENTATION WITHOUT CABLES

Wireless screen projection system for meeting and conference rooms. Thanks to its USB-C transmitter and its receiver with HDMI port, simply share your screen on the TV or overhead projector. 4K30Hz high quality transmission. Long range up to 20 meters.

Plug & Play, with no software required, setup and screen sharing is up and running in seconds.

No need for cables to display and share your content.
