Rechargeable spotlight presentation remote -**AIRPRESENTER**

TAKE YOUR PRESENTATIONS TO THE NEXT LEVEL

The spotlight presentation remote control is the reference tool for your meetings and presentations.

. Thanks to its software, the AIRPRESENTER has 4 integrated modes to animate and present your content.

- 4 modes:
- 1. Mouse mode allowing you to navigate with the cursor and click on your content.
- 2. Spotlight mode which illuminates the part of the screen you are pointing at.
- 3. Magnify mode, which clears and zooms in on the content you point at.
- 4. Creative mode to draw and write directly over your content to highlight what you want. All this with a single click and with only pointer movements to navigate.

 These technologies allow perfect readability on the screen unlike traditional lasers which are barely visible when pointed at the screens.

In addition to these different functionalities, the AIRPRESENTER allows classic functions such as scrolling slides, as well as quick black screen mode to hide the

Long range thanks to its USB-A and USB-C radio frequency dongle. Its aluminum design and soft-touch buttons provide a pleasant and instinctive grip.
