

## Twisted USB-C to USB-C Cable

### CHARGE YOUR DEVICES RELIABLY AND SUSTAINABLY!

Do you want to charge your devices reliably and durably?

The twisted USB-C to USB-C cable is the solution to your problem.

The cable allows you to charge your devices with a USB-C input.

The spiral structure of the cable allows it to reach 1m in length in addition to being more resistant than a classic cable.

The USB-C to USB adapter allows you to vary one of your ports from USB-C to USB

It is easy to use in situations where space is limited or where it is necessary to bend or turn the cable.

This cable is extremely resistant thanks to its thicker spiral structure

This cable is ideal for Android auto use
