Eco-friendly Lightning cable

BENEFIT AN ECO BUILT AND EFFICIENT CABLE

T nB has always been able to remain at the cutting edge of technology and offer accessories in line with market innovations, but today a much more important issue is in progress.

The ecological impact of companies like ours must be reduced. TnB became aware of this several years ago and we decided to step up these efforts to reduce our production and our waste of polluting materials. .

T'nB's co range is the result of several months of research to offer you co-designed technological products that meet our quality criteria.

This cable is made up of 45% vegetable matter, which leads to a reduction in the use of plastic in its design. The plastic used in the composition of this cable is TPE, which is the easiest plastic to recycle today.

Charge and sync all your Lightning-equipped Apple devices in style.

This 1.5 meter USB-C to Lightning cable lets you connect your iPhone or iPad to a device with a standard USB-C port.

Fast charge up to 60W.
