SINGLE 2 Bluetooth headphones black

BLUETOOTH 5.0 LATEST GENERATION

The SINGLE 2 headphones are the perfect headphones for enjoying your favorite songs on repeat. A helmet in an unmodable color, for an inimitable design. This Bluetooth 5.0 headset connects wirelessly to your smartphone. You can also listen to music directly from an SD card using the dedicated DI port. Finally, thanks to the 3.5mm jack port, plug in a jack cable and enjoy music while saving your headset battery.

The SINGLE 2 headphones will take you as far as the bass of your songs is deep, with extraordinary intensity, and a battery life of 8 hours.

Foldable and equipped with rotating pads, store it easily in a bag or briefcase and always keep it close at hand. Its adjustable headband allows you to adapt it to the size of your head and ensure your listening comfort, even over a long period of time.

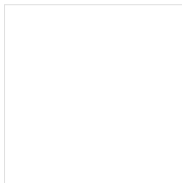

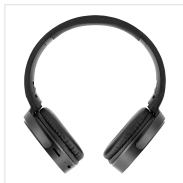

Thanks to the integrated controls, you can adjust the volume, playback track, navigate between listening modes and answer your calls in one gesture. A microphone is integrated for clear calls without the need for your smartphone.
