

## Premium 15W 3-in-1 adaptive induction charging stand

### FAST WIRELESS CHARGING IN A COMPACT STAND!

Charge your smartphone with this motorized mount featuring 15W turbo wireless charging.

Designed for use in cars and trucks, wireless charging is automatically activated with compatible smartphones (equipped with an induction receiver or a wireless charging case).

The mount is powered by a USB-C cable connected to the included QC 3.0 USB port cigarette lighter charger (turbo charging).

It offers adaptive turbo wireless charging; the height of the charging system automatically adjusts to your phone.

Equipped with a capacitor, you can open and close the mount even after the car's power is off.

A truly versatile mount, its suction cup mounts to multiple surfaces (windshield or dashboard), and the mount comes with a vent adapter.

On the back, a touch button opens and closes the holder, which can hold a smartphone up to 7 inches.

The rotating head allows you to tilt your smartphone in both portrait and landscape mode.

### BOX CONTENTS

1x Induction Charging Stand  
1x Car Charger  
1x USB-C Cable  
1x User Manual
