

10W induction charging support with suction cup and ventilation grille

ENJOY FAST WIRELESS CHARGING WHEREVER YOU WANT!

Charge your smartphone easily with this 3-in-1 induction charging mount, specially designed for use in the car.

Simply place your smartphone on the mount to activate charging. Enjoy automatic motorized opening when you bring your phone close to the mount. You'll no longer need to connect a cable to your smartphone to charge it. The mount is powered by a USB-C cable connected to your vehicle's cigarette lighter charger (cable and charger are included).

This versatile mount adapts to any type of vehicle thanks to its 3-in-1 mounting kit, which includes a windshield suction cup, a vent mount, and a dashboard adapter. A button located on the back of the mount allows you to adjust the clamp to the size of your smartphone (compatible up to 7 inches). The 360° rotating head allows you to tilt your smartphone in both portrait and landscape mode for maximum comfort.

Inductive charging is compatible with all smartphones equipped with an induction receiver or a wireless charging case.
