## ENERGY BONE ULTRA RACER Conduction Sport Headphones

### 2-IN-1 SAFETY: FREE EARS AND MAXIMUM VISIBILITY

Discover the ENERGY ULTRA RACER sports headphones, your unflinching ally for unparalleled performance!

In collaboration with the LIGUE ULTRA, push your limits even further with these headphones in the colors of the race that takes you from the French mountains to Tahiti!

The ENERGY ULTRA RACER headphones are essential for taking your training to the next level. With their bone conduction technology, enjoy your music while remaining aware of your surroundings and potential hazards. Sound is transmitted via vibration through the temporal bone, directly to the inner ear. The result: you benefit from clear sound in any environment, while your ears remain free to be aware of your surroundings.

The neckband features an LED strip that can be set to flashing or continuous light. Make yourself visible to your environment, even at night, and ensure your safety. With their ergonomic design and ultra-light weight of just 28 grams, they offer optimal comfort and stay in place during your most intense workouts.

With IPX4 certification, they are resistant to splashes, sweat, and rain. Train without constraints, whatever the weather; these earbuds will keep up with you every step of the way.

The intuitive integrated controls allow you to easily manage your music and calls, while the battery provides up to 15 hours of uninterrupted listening (between 9 and 10 hours with the light on, at 70% volume)!

Don't let anything hold you back; enjoy your music to the fullest with the ENERGY ULTRA RACER earbuds.
