

## Ultimate Bluetooth FM Transmitter

### MUSIC FROM YOUR SMARTPHONE IN YOUR VEHICLE!

Do you have a vehicle without a USB port or Bluetooth and want to listen to music from your smartphone and easily manage your calls?

This Bluetooth FM transmitter with integrated hands-free kit is for you. It allows you to listen to your music and take calls directly through your vehicle's speakers.

You can connect the FMCT10 to your devices via Bluetooth (Bluetooth 5.0), a USB flash drive (max. 64 GB), or a USB input.

Featuring two USB-A ports, one with an 18W charging port and the other with a 5W charging port, it also features a USB-C charging port with 30W turbo charging.

Maximum power: 38W.

All product features can be used while your phone is charging.

Thanks to its integrated buttons, you can also manage your music and take calls with a simple click. Additionally, it features an automatic radio station search function (FM frequency: 87.6-107.8 MHz).

The product is equipped with a music volume control dial.

Its magnetic remote microphone can be easily attached for optimal positioning, and its magnetic mount allows it to be easily installed as a lavalier microphone. Thanks to the adhesive on the back of the microphone, it can be attached anywhere in the vehicle. Its noise reduction function improves voice clarity.
