

Make your life *easier*

Sou - Speakers - High Power

BOOST BLASTER Bluetooth speaker

LET'S PARTY !

With the BLASTER range, explode the boundaries of music! The BOOST BLASTER will give you unforgettable moments: crazy afternoons or wild evenings.

A maximum sound of 60 Watts in a compact and portable format: the optimal weight-power ratio, with a battery life of more than 10 hours!

Connect via Bluetooth or via the integrated 3.5mm jack ports and USB ports. The USB port also serves as a charging output: plug your phone into the USB port and use the speaker as a backup battery to charge your smartphone!

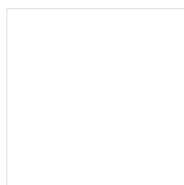

The speaker has 3 Equalizer presets to adapt each music to the style that best suits it. Navigate between the 10 RGB LED modes of the BOOST BLASTER to combine sound and light and set the dance floor on fire!

The enclosure is IP55 certified: enough to resist foreign bodies (dust, sand) and splashes of water, rain and splashes. The BOOST BLASTER will therefore accompany you everywhere, whether it rains or snows, the sea or the countryside!

Thanks to the integrated touch controls, manage the speaker without using your smartphone. With the rotary volume button, be even more precise in sound management.

And with the integrated shoulder strap, go conquer the world, with a speaker on your shoulder!

Finally, connect two BOOST BLASTERS together to create stereo sound and amp up the ambiance!

BOX CONTENTS

1 x BOOST BLASTER
1 x USB-C cable

1 x jack cable
1 x notice

Characteristics
