Sou - Speakers - High Power

Speaker PARTY POWER black

LET'S PARTY !

With the BLASTER range, explode the boundaries of music! The PARTY BLASTER will give you unforgettable moments: crazy afternoons or wild evenings.

A power of 60 Watts RMS in an innovative design: two speakers on each side of the speaker for a real 360 degree!

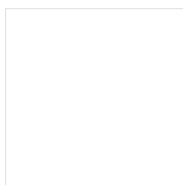

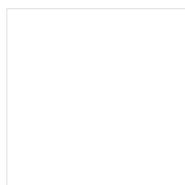

Two buttons make bass and treble management intuitively accessible: you are the only DJ at your party! You can also select from the 6 balance presets already saved: Normal, Pop, Rock, Jazz, Classic or Country.

Connect via Bluetooth or with a 3.5mm jack cable, the USB port or the SD card port.

The PARTY BLASTER also has a 6.35mm jack port: plug in a musical instrument and use the speaker as a studio amp! At the same time, use the included Bluetooth microphone and switch to karaok mode in an instant! You control the volume and microphone echo with one gesture, to become the star of the evening.

Navigate between the 4 RGB LED modes of the PARTY BLASTER to combine sound and light and set the dance floor on fire!

For even more immersive sound, you can connect two PARTY BLASTERS together and amp up the ambiance!

BOX CONTENTS
