

Wireless speaker RECORD II LED blue

LISTENING TO MUSIC HAS NEVER BEEN SO TRENDY !

This compact, design speaker, with a modern look, with a rubber touch as well as a discreet LED ultra trendy will be your new travel companion to listen to your music playlist wherever you go! Don't be fooled by its size, this speaker is small but it has everything a big one, starting with its 5W speaker and its deep bass that are unique for a speaker of this size! In addition to this, the RECORD II Led speaker will never cease to amaze you: equipped with a latest generation Bluetooth 5.0 which allows you to enjoy an ultra-stable signal, high quality sound rendering as well as extended autonomy up to 8 hours! Thanks to the discreetly integrated jack and SD card port you can almost double this autonomy by preferring to listen to your music on an SD card or via an auxiliary cable. This speaker is also equipped with the latest TWS technology, connect your different RECORD II LED speakers together and enjoy stereo sound! With a built-in universal microphone, compatible with all smartphones / tablets / MP3 ..., you can directly take a call from your speaker, and communicate in loudspeaker with your loved ones! Thanks to its discreet buttons, the RECORD II Led speaker allows you to directly control the playback tracks of your playlist, but also to manage the volume, without having to operate your smartphone! The new RECORD II LED speaker by T'nB, the accessory you will not be able to do without!
