

Sou - Speakers - High Power

## TWIN BLASTER Bluetooth speaker

### SHATTER THE SOUND BARRIERS!

Blast through the sound barriers! The BLASTER range is designed to fuel all your desires, overcome prejudices, and bring people together around a shared passion. Rock afternoons by the pool, funk days at the skatepark, rap evenings on the patio, or techno nights in the garden: get the party started no matter the setting. Its refined gray color and fabric finish give it a unique look. It fits perfectly in the garden or the living room, remaining discreet and blending harmoniously into your décor. The small, colorful, and dynamic LED strips are the finishing touch to its design, adding detail to every atmosphere.

Measuring 23cm long and 10cm in diameter, the TWIN BLASTER is the ideal size to provide the necessary sound power while remaining portable and easy to carry. Its design lets you perform a little magic trick: use it as a single speaker or split it in two to create stereo sound. The sound then surrounds you completely, 360°, multiplying the immersion! The speaker's peak power reaches over 100W, and it features two extremely flexible passive radiators to deliver deeper, warmer bass. Enjoy over 6 hours of battery life, enough for a whole afternoon of ambiance, and IPX4 water resistance to withstand splashes and light rain. Use the integrated control buttons directly on the speaker and play your music via Bluetooth, the 3.5mm jack, or the micro SD card slot.

Illuminate every moment, amplify every atmosphere with the BLASTER range!

### BOX CONTENTS

1 x TWIN BLASTER

1 x USB-C cable

1 x instructions

## Characteristics

23 x 9 x 9

Lithium-ion battery
