Bluetooth rotative face tracking holder -INFLUENCE

SHOOT YOUR VIDEOS IN TOTAL FREEDOM OF MOVEMENT!

The automatic 360 ° rotary bluetooth holder is the smart accessory every vlogger needs!

A true concentrate of technology, it allows you to make high-quality videos, in total autonomy : its front sensor recognizes your face and the support rotates to follow your movements.

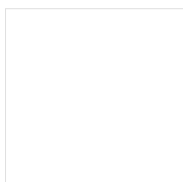

Thus, create ever more dynamic and daring videos, in portrait or landscape mode. Your creativity has no more barriers left!

The use of this accessory requires the installation of Souing application.

Install the smartphone on the stand, turn it on, let the facial recognition take place, and be free to record your videos or broadcast your contents live!

A universal screw patch is under the holder so as to use it with a tripod.

Rechargeable using the included USB-C cable and compatible with all smartphones, this stable and ergonomic stand will revolutionize your recordings and live diffusions. Work like a real pro and become the best of the influencers!
