

LED ring 6" with clip - INFLUENCE

ENHANCE THE BRIGHTNESS OF YOUR VIDEOS!

This 6 "diameter LED ring is the essential accessory for your videos. The ring-shaped construction allows uniform light diffusion, which avoids differences in contrast and thus leaves no visible shadow on the shot. The ring has a control lever integrated into the cable, which allows to turn it on and off, to navigate between the 3 light options (warm light, cold light or full light), as well as to adjust the brightness level. Thanks to its built-in clamp, the ring can be fixed on your computer. The ball joint allows the position of the ring to be adjusted. The LED ring is powered by the attached USB cable.

BOX CONTENTS

1 LED ring 6" with clip
