

PREMIUM- JACK 6.35 M/M STEREO 5M

TRANSMIT YOUR AUDIO SIGNALS WITH SUPERIOR QUALITY

Transmission quality: The JACK 6.35 M/M STEREO cable uses high quality connectors to provide quality signal transmission. Minimizes signal loss and interference, ensuring optimum transmission quality for audio signals.

Wide compatibility: The 6.35 M/M STEREO JACK cable is compatible with a variety of audio equipment, such as electric guitars, amplifiers, keyboards and DJ equipment. This broad compatibility makes it a practical and versatile choice for audio professionals.

Suitable length: The 5 meter JACK 6.35 M/M STEREO cable offers sufficient length for audio connections in recording studios, on stage or in concert. This length allows audio equipment to be connected at a reasonable distance without the need to use extension cords or additional adapters.

Optimum sound quality: The JACK 6.35 M/M STEREO cable uses high quality conductors to guarantee optimum sound quality. This feature makes it an ideal choice for audio professionals looking to ensure optimum sound quality in their productions. Premium finish
