Bluetooth digital Keypad

DESIGN AND COMPACT !

Modern and sober design:

iClick - Bluetooth wireless with 28 keys - simple and easy to use with your computer. With an aluminum finish and its SLIM design, take this numeric keypad everywhere with you.

Bluetooth 3.0 technology:

This wireless technology allows a stable wireless connection. The numeric keypad has a range of 10m max.

Bluetooth is compatible with Mac OS, iOS, Windows, and Android, and works with iMac, MacBook Air, MacBook Pro, and any laptop with Windows 10/8/7.

28 keys:

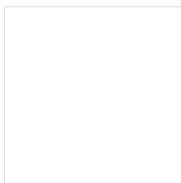

In addition to the traditional 17 buttons of a numeric keypad, it has 9 additional keys often most used with a standard keyboard.

These keys (Home, End, Esc, PgUp, PgDn and arrows) only work with the Windows operating system.

Built-in rechargeable battery:

You don't need to change the batteries. It is easily recharged using the supplied USB cable. This numeric keypad works even while charging.

2 hours of charge = 2 weeks of use (autonomy calculated on average use).

BOX CONTENTS

- 1 bluetooth keypad

- 1 charging cable

- 1 user guide

Characteristics
