

Gravity mount for TESLA on-board computer

YOUR GRAVITY PHONE HOLDER, SPECIALLY DESIGNED FOR ALL TESLA MODELS!

Discover our dedicated Tesla car mount, to keep your phone within reach and sight during your daily commute.

This mount attaches to the corner of your onboard computer and adapts to any onboard computer format.

Thanks to its adjustable mount, this mount is compatible with all existing Tesla models: Tesla Model 3, Tesla Model X, Tesla Model Y, and Tesla Model S.

Avoid scratches or bumps thanks to the silicone insert that protects your onboard computer and prevents direct contact with the mount.

Its rotating arm allows you to adjust the mount's angle 180°, allowing you to adapt the mount to your needs and preferences.

The mount head also rotates, allowing you to maintain an optimal driving position and adapt it to suit the driver.

The mount head uses a gravity system to ensure a secure fit and adapts to your phone.

The mount is compatible with phones up to 7 inches.
