

Buckle lock for bicycle / scooter

SECURE YOUR SCOOTER IN ONE MOVE

Secure your bike or scooter against theft with our loop lock.
The cable is 1 meter long and has a diameter of 1 cm.
The lock is very easy to attach: loop the cable around a piece of street furniture, then place the head of the lock inside the loop, and tighten as much as possible. Then loop the head of the lock around your bike or scooter. Slide the attachment point onto the cable to form a loop around your vehicle and clip the lock to close it. Your lock is now installed. Use the provided key to unlock it.
When you're back on the road, you can store it in a bag or wrap it around your frame.

BOX CONTENTS

- 1 x buckle lock
- 2 x keys
- 1 x instruction manual
