Urban Moov - Equipment - Helmets

VIZION Helmet - BLACK SIZE M

VISIBLE AT ALL TIMES AND SECURE EVERYWHERE

VIZION Helmet by T'nB – Smart safety, finally accessible!

The VIZION helmet by T'nB features smart lighting with an automatic brake light: it detects when you brake and illuminates instantly to alert drivers. Certified to EN 1078, it meets the highest European safety standards, while boasting a modern urban design.

Your everyday benefits:

Be seen from 500 meters away: the integrated LED system (180° visibility) makes you visible day and night.

Automatic brake light: instantly alerts drivers when you brake, without any action required from you.

Integrated turn signals: easily signal your changes of direction with the remote control attached to the handlebars—no need to take your hands off!

Ready for all conditions: rain-resistant (IPX4), with a UV-protective visor and removable ear pads for winter. Long-lasting comfort: lightweight polycarbonate construction and Fidlock® magnetic closure, which fastens and unfastens with one hand.

Up to 8 hours of battery life: enough for your daily commute and weekend rides.

The VIZION helmet is much more than just a helmet: it's a safety ally that protects you, makes you visible, and facilitates your journeys, all while remaining comfortable and stylish.

Be seen, be protected, without compromise.

Size guide (head circumference)

Size M: 55–58 cm

Size L: 59–61 cm

Tip: If you are between two sizes, choose the larger one for greater comfort.

How to measure your head circumference?

To determine the right helmet size for you, follow these simple steps:

Use a flexible measuring tape (like a tailor's tape measure). Place it approximately 2 cm above your eyebrows, passing over your ears.

Wrap the tape measure around your entire head, including the back where it is widest. Note the measurement in centimeters.

Refer to the size chart above to identify your correct size.

A properly fitted helmet should conform to the shape of your head without being too tight or too loose. This ensures optimal protection, a comfortable fit, and pleasant everyday use.

BOX CONTENTS

- 1 x headset
- 1 x handlebar remote control
- 1 x carrying case
- 1 x USB-C cable
- 1 x instruction manual

Characteristics
