Practical and designed for you

Easy adjustment, optimal protection, and a design that adapts to your urban lifestyle.

This helmet is tested, certified, and complies with CE standard EN 1078:2012 + A1:2012 and all applicable safety regulations and standards.

Size Guide (Head Circumference)

Size M: 54–58 cm

Size L: 58–62 cm

Tip: If you are between sizes, choose the larger one for greater comfort.

How to measure your head circumference?

To determine the correct helmet size, follow these simple steps:

Take a flexible measuring tape (like a tailor's tape measure).

Place it approximately 2 cm above your eyebrows, passing over your ears.

Measure around the entire circumference of your head, including the back where it is widest.

Note the measurement in centimeters.

Refer to the size chart above to identify your correct size.

A well-fitting helmet should conform to the shape of your head without being too tight or too loose. This ensures optimal protection, a comfortable fit, and pleasant everyday
