## 8.5" solid tire for electric scooter

### A PUNCTURE-PROOF TIRE!

This electric scooter tire is compatible with the Xiaomi M365 / M365 Pro and all scooters with 8.5" tires.  
The main feature of this tire lies in its design: the solid tire does not require an inner tube and is therefore puncture-proof.  
In addition, the dimples on the sidewall provide additional cushioning to increase smoothness on the road and comfort of use.  
Resistant to impacts encountered on the road, the solid tire requires no maintenance or repair. You can take to the road with complete peace of mind.  
The 8.5" diameter is universal.  
This tire allows you to maintain the properties and performance of your scooter: natural cushioning, speed, and range.
